FIVE KILLED IN A RIOT IN SOUTHERN CITY

Winston Salem, N. C., Nov. 18.—Five known dead and a score or more injured, five of them seriously, was the toll early today, following a night of rioting resulting from attempted lynching. Troops rushed here shortly before midnight, apparently have the situation well in hand.

Police believe others may have been killed. Firing continued up to an early hour today, efforts of the home guards and police to restore order being unavailing prior to the arrival of the troops.

The mob formed Sunday afternoon and stormed the jail, seeking a negro charged with shooting J. E. Childress and Sheriff Flynt, and attacking Mrs. Childress.

After the difficulty, the police drove the mob out of the jail, after the negro sought had been seriously wounded. The home guards were then ordered out. Later a report circulated that the negro shot was not the man wanted, and by nightfall the mob reformed and marched on the jail.

Five companies turned the hose on the rioters. Firing followed. The mob quickly overpowered the guard and again forced entrance to the jail. After an hour the mob left, apparently not finding the negro. Rioters then scattered over the city, breaking up into small groups.

GREETINGS ARE EXCHANGED BY TWO GREAT GENERALS

London, November 18.—Field Marshal Haig has published the following in a special order:

"From General Pershing, November 11th:

"My Dear Marshal: Please accept my hearty greetings and congratulations and those of the American expeditionary forces, which we send you and the armies under your command on this day. It has indeed been an honor for the American troops to fight beside your British veterans in the war against the tyranny of militarism. The new associations we have formed will be cherished ever."

"From Field Marshal Haig, November 12:

"I am greatly touched by the kind message you have been good enough to send to us. The whole British army joins me in sending our heartiest thanks and greetings to you and the American forces in France, who so greatly contributed to the present successful issue. We shall ever remember the heroism of your troops in dangers and difficulties which we shared in common in the recent great battle, and we heartily reciprocate the feeling you express that our new relations may be developed and continued through all time."

Field Marshal Haig also issued similar cordial telegrams exchanged with Colonel House.

RESTITUTION ALL THAT IS DEMANDED OF THE GERMANS

New York, November 18.—In answer to German claims that surrender of 5,000 locomotives and 150,000 railroad cars, as demanded by the allies, would bring famine upon the country, Stephane Lauzanne, head of the Official Bureau of French Information, declared here that Marshal Foch has imposed upon the enemy merely a restitution of rolling stock which its armies of invasion seized in Belgium and Northern France early in the war.

"The German authorities pretend," said Mr. Lauzanne, "that this equipment is needed to transport food from the farm and to the cities. When the American press is filled with these claims it is, perhaps, well to remind the public that the invaders seized in France 50,000 cars and in Belgium the entire railway rolling stock, comprising 2,000 engines and 80,000 cars."

The French publicist asserted that the equipment specified in the armistice terms is necessary to the rationing of the civilian populations of Belgium and Northern France, "who have been starved and robbed of all they possessed by the German armies of occupation."

RENNER APPOINTED.
Zurich, Nov. 18.—Herr Renner, Socialist, has been appointed president of the provisional Austrian government, according to advices received here today.

"WILSON IS OUR GOD, HE FINISHED WAR," SAYS ITALIAN MAJOR

With the Italian army in Northern Italy, Nov. 18.—All army commands are moving forward in order to keep in closer touch with the evacuating troops.

The Americans, headed for Tolmino to take up positions on the frontier, are moving so fast that their food and equipment transport has been unable to keep pace with them. Today the Americans were fed by a passing Young Men's Christian Association truck.

During the offensive only one American was killed. Six were wounded slightly, and all of them are very proud of their hurts.

The roads are still blocked with blown-up bridges and general wreckage. There still are thousands of uncounted prisoners behind the Italian front.

Prisoners with whom the correspondent talked indicated the greatest interest in American political events. They do not regard the United States as an enemy.

"Wilson is our God," said one Major. "He finished the war and also is helping us to freedom."

EVENTS IN THE GERMAN EMPIRE BEING WATCHED

Washington, Nov. 18.—Events in Germany are being closely tabbed here, and in allied capitals as a basis for judgment concerning formation of the peace conference.

Signs of a change in party alignment may mean that before the session is convened a new government will be in power. Some indications point to ascendancy of even more radical forces than have been in the saddle, but in so far as information here goes, the revolution is fairly well in hand.

Government officials are fearful of bolshevism in one guise or another shall burst forth in Germany, with detrimental effect.

Such an event, the assembling at the peace table would undoubtedly be delayed.

However, those in authority here and abroad are proceeding with the preliminaries as fast as possible and will go ahead with the conference if will disorder does not break out in Germany.

American ideals will be spread throughout Europe soon, as an educational force for the peace table. Members of the committee on public information are going abroad this week.

President Wilson's "thanksgiving" proclamation just issued pronounced anew the doctrine that American was not in the war for aggressive purposes and is not now actuated by other than altruistic motives.

TROOPS IN THIS COUNTRY WILL BE FREE BY JANUARY

Washington, Nov. 18.—War department authorities are giving consideration to the second phase of demobilization—a return of divisions from abroad.

It is estimated that it will be some time in January before the government completes its task of freeing the 1,700,000 men in this country. However, it is doubtful now if any appreciable movement of troops from over there will commence before that work is done.

Intimations have been current that the department proposed to bring a few divisions home by Christmas, but General March thus far has not taken the public into his confidence on this point.

The New England division, mentioned as a possible Christmas present for the nation, is named in unofficial news, as being in the army of occupation. This group, reported now to be ten divisions, may have to be increased later, and it is quite likely that the units now engaged therein will be changed from time to time, just as in battle.

The work of freeing men in this country will be hurried as much as possible. The demobilization of development battalions, the first task undertaken is now in progress.

When the rainbow division comes home, it will have to be distributed all over the country, because of its national character. This national tour idea may be coincident with the "Home Coming Loan" to be launched early next year, as the fifth war loan.

BRITISH CHEER GEN. TOWNSHEND, LONG HELD PRISONER BY TURKS

Gen. Charles V. F. Townshend, en route to British lines from Turkish headquarters to ask armistice for Turkey

Major General Charles V. F. Townshend, commander of the British forces which surrendered to the Turks at K. I. Amara, after being shot, was given a rousing cheer by British sailors when he spoke before them in London on his arrival home recently. Townshend was held a prisoner by the Turks and when they decided to ask for an armistice Townshend was asked to carry the request to the allies. The photo shows him in the auto (at the extreme left) on his way to present the request.

JUSTICE SHALL REPLACE FORCE IN WORLD PROCLAIMS PRESIDENT

Washington, November 18.—Special and moving causes to be grateful and to rejoice are set forth by President Wilson today in his annual Thanksgiving Day proclamation.

Thursday, November 28, is proclaimed as this year's day of "thanksgiving and prayer."

The President appeals for strengthening of friendship and mutual respect in building the new structure of peace and good will among the nations.

The proclamation reads:

"It has long been our custom to turn in the autumn of the year in praise and thanksgiving to Almighty God for His many blessings and mercies to us as a nation. This year we have special and moving cause to be grateful and to rejoice. God has, in His good pleasure, given us peace. It has not come as mere cessation of arms, a mere relief from the strain and tragedy of war. It has come as a great triumph of right."

"Complete victory has brought us, not peace alone, but the confident promise if a new day as well, in which justice shall replace force and jealous intrigue among the nations."

"Our gallant armies have participated in a triumph which is not marred or stained by any purpose of selfish aggression. In a righteous cause they have won immortal glory and have nobly served their nation in serving mankind."

"God has, indeed, been gracious. We have cause for such rejoicing as

"CITIZEN HINDENBURG"

London, Nov. 18.—"Citizen Hindenburg" is the way Field Marshal von Hindenburg, commander of all German armies, is signing his orders.

The term "citizen" as a prefix to a name was used in the French revolution.

It is meant as a symbol of the equality of all men.

EMPEROR CHARLES IN CITIZEN'S CLOTHES

Geneva, Nov. 18.—Former Emperor Charles, of Austria, who is still in Vienna, renounced the throne in an autograph letter to Count Karolyi, President of the Hungarian National Council, says an Innsbruck dispatch received here. The dispatch adds that the former monarch is now wearing civilian clothes and that he says he is entirely finished with state affairs and wishes to live in the future as a private citizen.

DECLARES KAISER HAS NOT ABDICATED

Paris, Nov. 18.—(10:10 a. m.)—The Berliner Tageblatt declares that Wilhelm has not abdicated, explaining that he only fled from the country. The newspaper points out that the act of abdication was not published.

KAISER MAY RETURN TO GERMAN SOIL

Copenhagen, Nov. 18.—The workmen's and soldiers' council of Potsdam, announced it has learned that the former kaiser is planning to return to Germany, owing to the disturbances in Holland.

GERMAN SOLDIERS RIOTING IN METZ

Uaris, Nov. 18.—German soldiers have been rioting in Metz since Nov. 10, according to a correspondent of LaMatin, who went to that city to await its restoration. The French are scheduled to enter Metz tomorrow.

ESTABLISHES HEADQUARTERS
Constantinople, Nov. 17.—Lieut. General Sir S. Wilson, commander-in-chief of the allied forces on the Bosphorus and the Dardanelles, today established his headquarters at the British embassy here.

THERE WILL BE NO QUARREL
New York, Nov. 18.—The manufacturers do not "intend at this time to enter into any wage controversy" with organized labor, as this is a question that must be solved in the reconstruction period, President William H. Barr, of the National Founders Association, declared in a statement made public here.

ARMIES OF ALLIES CLOSE ON GERMANY FROM ALL FRONTS

Rome, Nov. 17.—(Delayed)—In compliance with the armistice provisions, Italian troops have occupied the main Austrian railway centers and pass toward the German frontier.

Amsterdam, Nov. 18.—A demand that the Rhine provinces be occupied only by British and American troops, was made today by the Cologne Gazette. This newspaper professed a fear that the French would incite the populations of these provinces.

London, Nov. 18.—Independent socialists have issued a manifesto urging abolition of a German monarchies, according to a Berlin dispatch received today by way of Zurich. It was pointed out that the German nation is still burdened with 17 kings, dukes and grand dukes.

By Webb Miller.

With the Americans advancing toward the Rhine, Nov. 18. (By courier to Verdun and Bar Le Due)—The third army resumed its advance into German territory at dawn today.

When the march began the left wing of the Americans rested on the Franco-Belgian frontier, while the right wing was near the German border in the Metz region. The American troops had camped during the night an average of nearly ten miles within the former German positions, along the general line of Ecovieux, Sorbent, Gouraincourt and Mars La Tour—a front of about fifty miles.

In their first day's march the Americans claimed nearly 500 square miles of French territory. Most of the towns, which had been badly shot up, were deserted by the Germans only a few hours before the Americans reached them. The Germans had not blown up any of the bridges or roads.

The few inhabitants hailed the Americans with delight. The advance proceeded smoothly, averaging three miles an hour. Signal corps men were kept busy bringing up new wires. The troops were fully equipped, wore their tin-hats and carried gas masks.

The infantry was in the lead, followed by machine guns, artillery, supply trains and ambulances. Each division was about thirty miles in length. All ordinary war time precautions were observed in last night's camps.

Today's advance is in the direction of Longwy. Laborers are repairing the German-built highways. A crossing was the advanced zone, the roads improved and the going was fine.

In withdrawing, the Germans abandoned quantities of material, guns and munitions, in accordance with the provisions of the armistice. At Spincourt, a German officer remained to turn over 42 guns, including two of 18 inch calibre. (This is the largest calibre gun ever mentioned in any dispatches.) He received a receipt.

In the darkness just before dawn yesterday, the first, second, third and fourth divisions, composed of regulars and the Thirty-second (Michigan and Wisconsin) and Forty-second (Rainbow) divisions started from their positions in which they had encamped on the edge of the American lines. They were preceded by a small van guard.

East of Verdun, Major X. L. Ewall of Lexington, Va., commanding a battalion of the first division, led his men up to the line at 5:30, presented his orders to the outpost, stepped across the line and ordered "forward march!"

A similar procedure was observed at other entry points.

The various divisions followed eight main roads toward Luxembourg. The Van Guard of the first division occupied Etain at 6 o'clock. Engineers marked land mines with red flags. German telegraph lines were picked up and within three hours the American division command was installed in former German headquarters.

All day long the roads to Luxembourg were crisscrossed with marching troops flying regimental flags. The advance, with clockwork precision, reached the assigned objectives early as the troops went into camp.

Thousands of released prisoners, the verge of starvation, streamed into the American camps. They included Russians, Rumanians, Italian Belgians, French and a few British and Americans. They were picked in trucks and sent to the rear.

Every detail of the advance was carefully planned. Engineers marked signs indicating towns and distances between them. As the columns rolled forward, various documents dropped out of the line to take up previously assigned positions.

The whole thing is far from spectacular but is most business-like.

DRAFT BOARDS ARE TO BE RETAINED

Washington, Nov. 18.—The 4,556 local draft boards of the country will cease to function at once if a recommendation which Provost Marshal General Crowder has made to Secretary Baker is approved. The plan to discharge the drafted men in the same manner in which they are selected and sent off to the mobilization camps.

General Crowder points out that there would be a great sentimental value in having the local boards meet out the men they sent into the army and that this could be done by appropriate ceremonies which would be appreciated by the communities.

BELGIAN TROOPS ENTER BRUSSELS

Paris, Nov. 18.—Detachments of Belgian troops have entered Brussels at the request of the Spanish minister for the purpose of keeping order, according to information here today. The triumphal entry of King Albert and Queen Elizabeth is now scheduled for next Saturday.

HEARD FROM OUR SOLDIERS AND SAILORS

Private Ray Brannen, who is with the 322nd Infantry at the front in France, tells some interesting experiences in a letter to Mrs. Brannen, which was received a few days ago. The letter follows:

In the Wilderness of France, October 13, 1918.
Dearest Wife:—Well, this has been one real busy day. We just received four large sacks of mail. I got two letters from you and one from mother, the first in over nine weeks. Your letters were dated August 27, and September 9, mothers, September 11.

Well, you no doubt know where we are by this time. We are located on the front, and have been for several weeks, it is sure some place. We do not remain in any one place very long. The last place we were, we had to leave in a hurry, as we were shelled out. One soon gets used to the noise of the guns and shells bursting near. The other day I saw a shell kill five horses and two men. Believe me, from the sound of the guns now, we are giving the Hun a great battle. We have been in three gas attacks, but they did not amount to anything.

Yesterday, when moving, I saw two allied balloons brought down by a German aviator. Also saw a German plane which had been brought down. The German aviator was still lying beside the machine, dead.

Hundreds of German prisoners pass by each day. In one bunch of prisoners were found three German women. It is claimed they are using them to fire the machine guns.

The big shells are now passing over our heads. Guess they are trying to locate a French gun back of us. The German runs have been bombing several small towns around here at night. It is nothing new to just get asleep, when you are awakened by them flying over you. The other night I saw over two hundred allied planes fly over toward the German trenches.

Was in the dug outs held by Germans for over three years, and they were fixed up real nice, electric lights, running water, just like a large hotel.

The ambulances have been real busy. It is nothing new to see twelve to fifteen dead horses and the same number of dead soldiers when out on a trip.

We have not had much cold weather yet, but lots of rain. Have my hair cut out in the field now along the road, just where we stop. It is not very safe in towns or near the cross roads and those are the places they shell the heaviest. This is a great life. We have plenty to (oh, boy, a fellow just came up and said Germany had agreed to all the president's terms) eat. Of course we have to sleep in wagons or under them when loaded. A large tomato can to take a bath in, which to some are few and far between.

It is rather funny on a hot day to see some of the doughboys sitting along the road, picking cooties out of their shirts.

Well, dear, give father and mother my best and tell them I will write just as soon as possible, but we never know how long we are to remain in one place. Of course we do most of our moving at night. The other night we moved 23 kilometers in a big rain. Most of us were soaked through, but you soon get used to that. I have never met any one yet I knew. Andy Elder is back at the coast, 600 miles away, and I doubt if he ever sees the front. (continued)

You will have to excuse writing as

I am sitting on a wagon tongue, writing on my mess kit.
Give all the homefolks my best. Tell Mr. Sheets and the rest of the men I send my best.
A bunch of prisoners just went by. Boys, who look to be 14 years old. Louis Drake, a Xenia boy, received a bunch of Xenia Gazettes so we have all been busy reading them today. We are not allowed to have lights or fire at night, as a German aviator might locate us, and then we would be shell ed.

URBANA IS HANDED SHORT END OF SCORE OF 24 TO 7 BY XENIA

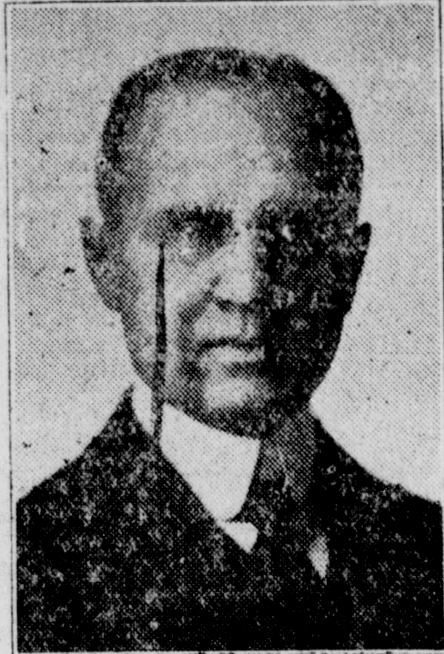

The Xenia High School football team journeyed to Urbana Saturday and added another victory by a score of 24 to 7. The game was hard fought throughout, the Urbana team repeatedly threatening to score, but the locals managed to hold them in check and won out. The Blue and White played an open game, making most of her gains on long end runs by Hartsock, Tullis and Riddell. Snodgrass made nice gains on a couple of passes also. The Urbana bunch played straight football, bucking the line repeatedly. They tried several passes but most of them were broken up or intercepted.

Xenia got her first touchdown when they got possession of the ball after the kickoff. A rapid march up the field netted a touchdown. Urbana came back and scored in the same quarter when Hennessey fell on the ball after Hagenbuch had carried it over. Currie added 3 more points in the second quarter on a drop kick from the 35 yard line. Hartsock made a touchdown in the third quarter on a forward pass and Currie bucked over in the fourth quarter.

Vannorsdall at quarter kept the opponents busy guessing, using finagling in calling his signals. "Bud" Owens played the game with a broken arm, having it in a splint less than a week. He played a good game at end on the defensive. Hartsock and Tullis both made long runs. Riddell made good gains when called back to carry the ball. Beals and Eyer were good on defense. The team played together and Urbana was out played at every stage of the game. The lineup and summary:

THREE ARE KILLED NEAR DAYTON BY A TRACTION CAR

Three Dayton women, were killed shortly before noon Sunday just west of Springfield when a limited car, east-bound on the Ohio Electric, crashed into an auto driven by John T. Bragg. His wife, daughter and mother-in-law were the victims of the tragedy.

Mr. Bragg took the party in his Ford touring car early Sunday morning, along with his son, Emerson, aged 14, and they started for the home of Mrs. David Metz, near Medway, to spend the day. Mrs. Metz is a sister of Mrs. Bragg.

Arriving at the Metz home, the boy alighted and ran ahead to the house. Discovering that there was no one at home, he returned to the car and it was decided to go on to Springfield, a distance of about six miles, and spend the day in that city. The boy opened a gate leading from the Metz farm, and parallel with the Ohio Electric track. As he did so Mr. Bragg drove out across the tracks.

The day being rainy, side curtains had been placed on the car, and this prevented the driver seeing the approach of an eastbound limited car. The auto was struck near the center and hurled a mass of splintered timber and bent rods, a distance of several yards. Across the tracks, and on the main Springfield and Dayton road, a couple of aviators from Wright field were driving. They picked up Mr. Bragg and Mrs. Brewer who were still alive, and started for the Wright field hospital. There it was discovered that the man was only stunned, while the woman lived but a few minutes. Mrs. Bragg was killed outright, and Mrs. Danner died Sunday afternoon at the Mitchell-Thomas hospital in Springfield.

DON'T SHORT CHANGE WAR WORK FUND

BY REV. CHARLES P. PROUDFIT
Pastor of 2nd U. P. Church.

Every dollar given to the United War Work Campaign is a vote of confidence in the judgment of those who at close range know a hundred times more about needs than those of us remote from the front. Every dollar we short change the amount asked is a protest against such men of world knowledge as John R. Mott.

America would be a base ingrate in the hour of victory to curtail the tiny margin of comfort of those who have been our substitutes. Those who sing daily "And we won't come back till it's over, over there" challenge the wavering of the tightwad who wants to quit the job half done.

Every home "over here" has had the death sentence hanging over it in the grim hours just ended. The question is whether we are worthy of its suspension. The dollars which go singly their way back to Northern France via the United War Work Campaign are the premium on a moral and physical insurance policy. Surely the underwriting of these hazards is a labor of love—the red corpuscles American will gladly assume.

Those there are who imagine the armistice terminates the need of the "hut" or at least lessens this budget. How about that old saw of "An idle brain being the devil's workshop"? How about the wearisome, colorless days and hours ahead in featureless patrol duty and which intensify the necessity for "huts" instead of subtracting from it.

Others there are who imagine that Uncle Sam might assume the expense of this system. To so do would be to invest this whole recreative system with strangling red tape; to denature its religious features; and to sift out civilian details which smack of home. No, let's come across with the eagle

HUGH HARPER IS WOUNDED IN A PECULIAR MANNER

A second letter has been received from Hugh Harper, who was wounded in France, which gives further information regarding the manner in which he was wounded. According to his letter it seems that he was in a machine gun squad and to gain protection from the enemy fire was sitting down. A sharpshooter spotted him and his bullet entered the bottom of his foot. His letter follows:

Dear Family:—
I have been thinking of my dear family all day so will try to write you a few lines. I am in a great deal of pain which is only natural from the nature of my wound.

Of course you are anxious to know how it happened. We were in action on the second day of the big drive at —, when we opened up our machine guns on some German infantry which was annoying our flank. In the process a Dutch sharpshooter picked me off the side of the hill. I was sitting with the soles of my feet straight up, feet pointing down the hill. The bullet was what is known as a dum-dum, or soft nose bullet. It entered the bottom of the foot, shattering the bones, hitting the main ankle bone and coming out right back of the bone. They had to operate on it at the first hospital back of the front where I was taken for the cleaning of the wound. The nurses are wonderful, so kind and sympathetic, so attentive to our every want. We certainly get wonderful treatment, so don't worry about me for a minute. I will start getting better in another week.

Love to all.
HUGH H. HARPER.

ALSACE-LORRAINE—V E N- GEANCE IS MINE, I WILL REPAY, SAITH THE LORD.

From the very first of the war one of the things which nearly everybody in this country hoped for, was the desire that Germany should, in the end be compelled to restore to France the rich section of country known as "Alsace-Lorraine," which Germany had wrested from France after the Franco-Prussian war, in 1871.

You will remember that that war (1871) had its origin in the same family as the present. This was the declaration of the candidature of the Hohenzollern prince Leopold for the crown of Spain. Such a candidature agreed upon without the knowledge of the French government, could not be permitted by France, and the war ensued.

Germany, in that war of 1871, was fully equipped and prepared for the conflict, with an army of 400,000, and two reserves of half as many more each; while France under Napoleon III, was illly prepared, with less than half as much of an army. The result could have been foreseen—the defeat of Napoleon—and the subsequent triumphant march of King William into Paris, where he was crowned Emperor of Germany. The treaty which followed provided for the ceding by France of the rich provinces of Alsace and Lorraine to Germany. These included valuable iron and coal mines, long coveted by Bismarck, King William's chief military general.

Since the armistice in the present war, many in this country have felt regret that our American boys did not get the chance to conquer Alsace-Lorraine and have the wonderful joy of turning it over to France. It would have read so splendidly in history. Naturally these sections are French, and have continued so during all these almost half a century of German occupancy. Such they were from the time of Caesar, who wrote in his Gallic wars that "the Rhine was the dividing line between Gaul (France) and Germany."

In 1871 the population of those provinces was 1,554,730. According to the census of 1910 it had increased to 1,874,014. Of these some 1,500,000 are of Alsace-Lorraine birth and descent. That is, they or their parents were born there before May 1, 1871, when the treaty of Frankfurt with one stroke of the pen turned them arbitrarily and against their most strenuous protest into Germans. Some 300,000 are German immigrants who have entered since and some 75,000 are of mixed origin.

Everyone in the territory who is at all educated speaks French in spite of the legal band placed by the Germans on the French tongue. Germany and its claims are apt to rest on an army of pliant professors dependent for preferment upon the Government, and to whom it looks for the historical and scientific justification of all its spoliation. Indeed, that is nothing new. Frederick the Great used to say quite brazenly, "I begin by taking possession of a province; pedants (lick-spittles) can always be found afterward to prove that it was my perfect right."

Ernest Renan wittily complimented German scholars on this function when he said, "With the philosophy of history as practiced by the Germans there are no rights in the world but those of the orang-outangs, unjustly deprived of these by the perfidy of civilized man." This fits the case in point.

Whatever was the frontier of Gaul at the time of the Romans it matters little to the human question as it stands today. The fact remains that in 1871, when Alsace-Lorraine was torn from France, the inhabitants of their imminent risk and peril continued strong protests even in the Reichstag after half a century of the two nations "living together." They are as antagonistic today as they were at first, as may be judged from incidents too numerous to dwell upon and from the fact that the French who penetrated Alsace recently were greeted by the population as liberators.

They are and always have been democratic and republican. They feel, as we do that the State is made to serve the people, and not, as the Germans, the people the State. Which necessarily produces a diametrically opposed set of ideals and standards.

And the political history of these territories demonstrates this.

"The mills of the gods grind slowly but they grind exceedingly fine"—and now Alsace-Lorraine have been returned to their own beloved France. It is seldom that vengeance shows so marked a retribution. The brazen conquerer of 1871 is the deposed and dishonored exile of 1918. God has wrought a great deliverance. "The horse and his rider hath he thrown in the sea."

The French cabinet on Thursday last considered questions concerning the organization of Alsace-Lorraine under French occupancy. Three high commissioners were appointed. They are Georges Maringer, commissioner general of national security, for Strassburg; Albert Tirman, State councilor for Metz and Henry Poulet, State councilor for Colmar.

It is probable that the departments in the rewon territory will resume their old names, namely, Bas Rhin, prefecture of Strassburg; Haut Rhin, prefecture of Colmar, and Moselle, prefecture of Metz. The Government already is considering the establishment of provisional administrative arrangements.

Thanks to the blessing of God in his good providence upon the united heroic efforts of our own and allied nations, the war struggle seems approaching its close.

ON GETTING BACK TO NORMAL.

No sensible person imagines that the return to normal conditions in the industrial and commercial life of the nation is going to be immediate or that a mere Government edict will bring about instant results in that direction. But nevertheless the removal of the ban by the war industries board on nonwar construction and upon various forms of public improvements and utility extensions is a long step toward readjustment. It is a necessary beginning, for it releases funds already available but tied up by war restrictions. It reopens long closed lines of commercial business, and it is bound ultimately to increase labor opportunities for the thousands and hundreds of thousands who will sooner or later be diverted from the making of munitions, etc., into the paths of peaceful occupation.

FOOD FOR THE GERMANS.

President Wilson has replied to the whining appeal of the German Government for food supplies as the nation would have had him reply. It is perfectly natural that there should be a feeling of profound aversion at the thought of sacrifices and deprivations on our part, and on the part of the Allies, for the benefit of the German people. We are not likely to forget, nor is it expected that we should, that throughout the whole course of the war the Germans were utterly indifferent to the fate of the populations of the invaded territories; nay more, they remember that food sent for the sole relief of civilian sufferers of Hun oppression was systematically diverted to German mouths. Yet we also must remember that the war was waged on our side for higher ideals than those which characterized the Huns; that it was a struggle for the supremacy of right and justice against unscrupulous and cruel might.

If peace is to be genuine and permanent, the victors must perform no act, leave no duty unperformed, with which they can be justly reproached on the pages of history. We have fought a good fight, we have kept our banners untarnished, maintained consistency in the conduct of the war. Now that we have won let not resentment, even righteous anger at the barbarity of the enemy divert us from the path of honor and humanity!

Making Them Comfortable.

Ethel, who was ten years old, was studying her reader and learned that fish are placed in brine before they are dried and prepared for sale. After explaining that brine is very salt water, the teacher asked why the fish were placed in it. Ethel's face was illumined with sudden understanding, and she promptly replied: "Because they are used to salt water!"

"THE WIFE"

By JANE PHELPS

BRIAN ENTHUSES OVER THE WAR.

CHAPTER XCI.

Brian hung up the receiver, his mind in a peculiar condition. He was flattered that Mollie had missed him; yet a bit worried that she had called him. He must warn Mollie not to call him at home. Rachel, too, might answer and think it strange that a woman had called him. She was devoted to Ruth and probably told her all that happened in her absence.

"Mollie's a dear!" he said to himself as he often had said before. "She makes a fellow so darn comfortable."

Perhaps Brian was not so different from many other men, in that he admired a woman who made him comfortable. Most men are very sensitive to that sort of women, and Brian was a very ordinary sort of man in most things—Ruth's belief to the contrary. Brian's view of Mandel had not tended to make him happy. That prosperous, well-groomed man whom the lackeys treated with such subservience, was just the sort of man Ruth had been accustomed to all her life, and whom her aunt would have chosen as her husband had she been able. In a way, the sight of him—his evident prosperity—had made Brian more bitter toward Ruth than he had felt for a long time. Suppose this man did make love to her. Would she be able to resist him, his money?

The thought made Brian blush because of what it implied of his idea of Ruth. He knew she loved him, that she was good and true. Yet he had insulted her by thinking that, because of Mandel's money, his personal attractiveness, she would prefer him to spending her life with a poor lawyer.

"If I had half a chance, I'd show them," Brian muttered as he started for bed. That he had all the chance anyone else had, he did not believe. Midas had not spilled gold in his lap; neither had he been favored by the gods with the luck that comes to some men. So he figured. That the very men he envied, worked two hours to his one—that they neither spent their time in foolish grumblings against fate, or wasted it in other ways, he would not have conceded. It was just his luck not to get along like some fellows did.

Ruth's picture stared at him from his chiffoier as he prepared for bed. She looked so frankly into his eyes. There was such a sweet smile on her lips, that he raised it and pressed a kiss upon the glass.

"She's sweet," he said as he tugged at his necktie. "I wish she liked to stay at home."

Had he known that Ruth was lying awake, her eyes wet with tears because she had not heard from him.

20 YEARS AGO

Mr. Joe Day, the well known butcher, and Miss Maggie Moran, daughter of Mr. and Miss Michael Moran, of Spring Hill, were united in marriage last evening, by Rev. Father I. J. Hocter. Joe is a first rate young man and the bride is a very highly esteemed young lady. They are now receiving the congratulations of numerous friends.

Editor David L. Croy, of the Troy Record, came down today and is shaking hands with his Xenia friends. Since that time he has taken hold of the daily there the circulation has steadily increased, owing to the paper being made a live one and fully up-to-date in all respects.

A short time ago we were discussing a friend, who, while her hair had grown white with the years, had retained a youthful figure. A few days afterward Ruth, referring to her, said, "You know who I mean, Auntie—that lady who looks so young behind and so old in front."—Chicago Tribune.

QUIT MEAT WHEN KIDNEYS BOTHER

Take a glass of Salts before breakfast if your Back hurts or Bladder is troubling you.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid which excites the kidneys, they become over-worked from the strain get sluggish and fail to filter the waste and poisons from the blood, then we get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, dizziness, sleeplessness and urinary disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, stop eating meat and get about four ounces of Rad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast and in a few days your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate the kidneys, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder weakness.

Rad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active and the blood pure, thereby avoiding serious kidney complications. adv

COUNTY TEACHERS URGED TO HELP PUT QUOTA OVER

The teachers and superintendents of the county schools are urged by County Superintendent Reynolds to devote every effort to the work of helping put the county War Stamp quota across before the close of the year. Supt. Reynolds has addressed the following letter to all teachers and superintendents:

To the Teachers and Superintendents of the County:
 I am sure you are all anxious that our county may not fall short of her quota in the sale of Thrift and War Savings Stamps. Our county has gone gloriously "over the top" in each of the four Liberty Loans, the several Y. M. C. A. and Red Cross drives, and in all other war projects. It will be an everlasting regret and disgrace, if the good people of Greene county should permit her to fall short of her quota in this ONE WAR PROJECT.

Twenty-five or thirty counties of our state have already reached their quota in this Thrift and War Savings work, and the query they are posing at us is, "What's the matter with Greene County?" Most of us think old Greene county second to none in patriotism, wealth, commonplace intelligence, and industry, but if we permit her to fall short in this field of patriotic duty, we will have to revise our own estimate of our own county.

This Thrift campaign closes January 1. We have yet more than two hundred thousand dollars to raise to meet our quota. This is a small sum if we get behind it, but a very large sum if we expect the school children to raise it. There is but one way by which this vast sum of money can be raised and that is by close personal house to house canvass by adult solicitors. Of course, we will do all we can through the school children, but we need the assistance of adult solicitors.

Each person in the county should be interviewed and urged to make as large a purchase as possible. Keep in mind that moneyed men and women do not care to bother with a small investment, so ask them to make it large enough to make it interesting. Several school children in the county have made sales of one thousand dollars. We will need many of these to put this across.

When one recalls that War Savings

Stamps are non-taxable, that the money invested in them may be had at any time, on ten day's notice, that they are all due on January 1, 1923, and that they make a return of 4.27 per cent on the investment from the month of purchase, it is apparent that this is one of the best paying investments offered.

The schools are again opening. Let each of us renew this work with an increased effort and a determination to show that the schools of Greene County are always willing and ready to do their full share in any patriotic work that may be assigned to them. Let us see that each person in the school district is properly solicited and urged to do his patriotic duty in this field of war work. Let us do our utmost to place our county in good standing before January the first.

At our last report we had 3,625 school children enrolled in the schools of the county system. Their sales averaged \$14.01 per pupil. This is good work and the teachers and children are to be complimented for it, but we must go on and finish the task. The low townships should bring up their share. We should average above \$20 per pupil before January first.

Very truly,
 F. M. REYNOLDS,
 County Superintendent.

Care of the Telephone.

The telephone is a fine receptacle for germs of every kind, and little attention is paid to sterilizing this much-used machine. It should be washed out with alcohol as often as required, and to keep the dust out of it make a small round cover of soft leather or heavy cloth and stitch a broad ribbon around the edge, through which can be run a drawing string or elastic. Put this over the transmitter.

As Light Goes Through Glass

Just as light rays penetrate through glass, so current passes freely through Threaded Rubber Insulation. Nearly 200,000 tiny threads in each insulator mark the path for the current flow.

The hard rubber stands guard against the formation of short circuits between battery plates.

There's another reason why the Still Better Willard Battery with Threaded Rubber Insulation is worth so much more than its slightly higher cost. It's the one and only battery with the "Bone Dry" principle that is your absolute assurance of getting a battery as new as the day it left the factory.

H. E. SCHMIDT ENJOINS THE CITY OF XENIA

Two suits to enjoin city officials from enforcing the provision of the awning and sidewalk ordinances, were brought Monday morning for H. E. Schmidt, by Attorneys Marcus Shoup and F. L. Johnson.

Defendants in the action are the members of the City Commission, City Manager Riddle and Chief of Police James M. Canaday.

The petitions allege that the city

commission had no legal authority to pass the ordinances, and that the people were without authority to ratify the commission in its action.

It is alleged that the ordinance regulating the use of sidewalks is not uniform in its operation. In that it excepts from its operation any balcony, bay window or column of any building abutting on the street. The only columns of any building abutting on the street at the time the ordinance was passed, it is set forth, were the columns at the Xenia National Bank building, which are for ornamental purposes only. It is set forth that the awning in front of the plaintiff's place of business is of a permanent nature, and a vested property right, and that the plaintiffs are seeking to interfere with him in the lawful operation of his business by causing its removal.

The ordinances in question were passed some months ago by the city

commission and the removal of awnings and other obstructions under the provisions of the ordinances was delayed by action of several citizens who demanded a referendum on the question. The question was presented to the citizens of the city for decision at the last election and they by an overwhelming majority voted to uphold the ordinances and thus demanded the removal of the awnings.

A temporary restraining order was allowed by Judge Kyle.

'NEGLECTED' WAS AN EASY ONE

The word left out of an ad. on the Missing Word Contest pages last week was "NEGLECTED" and was omitted from the Clara G. Renting Insurance ad, between the words THEN and TO.

Well only a very few of the hundreds who are in the contest missed this word. We really thought that we had left out a rather hard word this time but even the youngsters found "neglected."

Now for this week, we are omitting a word that will take just a little bit more careful hunting, especially for the younger folks, for it is pretty well concealed, although not a really hard word, it is not a short one. Look well old folks and young folks. Watch the corners so to speak, this time.

We are compelled to make the words just a little harder to find from now on, for everyone seems to be finding the correct ones each week, and of course if this continues, there would be no one to win, for everyone would be the winner if ALL answers were correct.

Don't quit now, if you can't find the right word any one week, for we believe that the winner of the contest for the twelve weeks will not have over eight or nine correct answers all told. So get busy, even if you have turned in an incorrect answer, and make up for the ones the other fellow misses, with your correct ones.

Remember now, that word for this week starts with an "E" and ends with a "T". The Contest ads. are confined to two solid pages of advertising, always run side by side, with an overflow of three ads. plainly marked on the following page. Don't miss these extra ads. for the word might be in one of them.

XENIA WAKES UP AND WILL GO OVER TOP IN CAMPAIGN

Xenia has awakened. According to official figures given out Monday morning the United War Work Campaign in Xenia city gives promise of being a success in spite of the disheartening manner in which the campaign got under way. At the close of business Saturday night there was in the hands of the treasurer money and pledges to the amount of \$7,589.95. This leaves only \$5,000 to get, and the committee feels confident that it has nearly \$3,000 of this amount promised.

This leaves only about \$2,000 or \$2,500 yet to be subscribed. The solicitors are confident they can secure that amount, even if they have to go back to the people who have already given. There are several wealthy citizens who have thus far refused to give and it is hoped that they may be forced or coaxed into line.

Up to date, the big subscriptions have been made by the Hooven & Allison Company and the R. A. Kelly Company. The Hooven & Allison Company has given \$1,200 and J. D.

Steele gave \$300 in addition, as a personal subscription. The R. A. Kelly Company gave \$1,100 and Mr. George Kelly gave \$100 additional as a personal subscription. These handsome subscriptions and a few other subscriptions of from \$100 to \$500, which the committee hopes to get, will put the city within striking distance of the goal.

The committee which on Saturday morning was badly discouraged over the condition in Xenia, is now much pleased over the situation, and promises that Xenia city will come through with colors flying. This should be good news to all loyal Xenia people.

In the county, the campaign is going along nicely except in two or three precincts where the campaign machinery has broken down. New organizations have been built up in those townships however, and every township promises to stay on the job until their respective quotas are reached, even if it takes all week.

Officially, the time limit for the campaign has been extended until Wednesday night, and at that time Chairman Prugh hopes to be able to announce the county quota has been reached.

JOHN HIGGINS IS REMOVED BY DEATH SATURDAY EVENING

After a long period of ill health from heart trouble, John Higgins, a well known farmer of Sugar Creek township, died at his home north of Bellbrook at 6:30 Saturday evening.

Two weeks ago he was stricken with the fatal attack, but previous to that time for two months his health had apparently improved.

Mr. Higgins was the second son of Anthony and Winnifred Stanton Higgins, and he was born in Manchester, England. When he was six months of age his parents came to the United States, and settled in Bellbrook, which was the family home until their removal to the farm north of Bellbrook. After the death of his father, John Higgins came into possession of the homestead and it was there his death occurred. Twenty three years ago he married Miss Martha Volkenand, of Dayton, who survives him with their daughter and son, Miss Winnifred, and Herman. He is survived also by three sisters and a brother, Misses Mary and Ella Higgins, the latter living with his family on the home place, Mrs. G. F. Stutsman and Anthony Higgins. The late Thomas Higgins, of this city, was a brother of the deceased.

He was a man of quiet disposition and upright life, respected in the community where he spent all his life. FIVE KILLED IN A RIOT IN SOUTHERN CITY

Winston Salem, N. C., Nov. 18.—Five known dead and a score or more injured, five of them seriously, was the toll early today, following a night of rioting resulting from attempted lynching. Troops rushed here shortly before midnight, apparently have the situation well in hand.

Police believe others may have been killed. Firing continued up to an early hour today, efforts of the home guards and police to restore order being unavailing prior to the arrival of the troops.

The mob formed Sunday afternoon and stormed the jail, seeking a negro charged with shooting J. E. Childress and Sheriff Flynt, and attacking Mrs. Childress.

After the difficulty, the police drove the mob out of the jail, after the negro sought had been seriously wounded. The home guards were then ordered out. Later a report circulated that the negro shot was not the man wanted, and by nightfall the mob reformed and marched on the jail.

Five companies turned the hose on the rioters. Firing followed. The mob quickly overpowered the guard and again forced entrance to the jail. After an hour the mob left, apparently not finding the negro. Rioters then scattered over the city, breaking up into small groups.

GREETINGS ARE EXCHANGED BY TWO GREAT GENERALS

London, November 18.—Field Marshal Haig has published the following in a special order:

"From General Pershing, November 11th:

"My Dear Marshal: Please accept my hearty greetings and congratulations and those of the American expeditionary forces, which we send you and the armies under your command on this day. It has indeed been an honor for the American troops to fight beside your British veterans in the war against the tyranny of militarism. The new associations we have formed will be cherished ever."

"From Field Marshal Haig, November 12:

"I am greatly touched by the kind message you have been good enough to send to us. The whole British army joins me in sending our heartiest thanks and greetings to you and the American forces in France, who so greatly contributed to the present successful issue. We shall ever remember the heroism of your troops in dangers and difficulties which we shared in common in the recent great battle, and we heartily reciprocate the feeling you express that our new relations may be developed and continued through all time."

Field Marshal Haig also issued similar cordial telegrams exchanged with Colonel House.

RESTITUTION ALL THAT IS DEMANDED OF THE GERMANS

New York, November 18.—In answer to German claims that surrender of 5,000 locomotives and 150,000 railroad cars, as demanded by the allies, would bring famine upon the country, Stephane Lauzanne, head of the Official Bureau of French Information, declared here that Marshal Foch has imposed upon the enemy merely a restitution of rolling stock which its armies of invasion seized in Belgium and Northern France early in the war.

"The German authorities pretend," said Mr. Lauzanne, "that this equipment is needed to transport food from the farm and to the cities. When the American press is filled with these claims it is, perhaps, well to remind the public that the invaders seized in France 50,000 cars and in Belgium the entire railway rolling stock, comprising 3,000 engines and 80,000 cars." The French publicist asserted that the equipment specified in the armistice terms is necessary to the rationing of the civilian populations of Belgium and Northern France, "who have been starved and robbed of all they possessed by the German armies of occupation."

RENNER APPOINTED.

Zurich, Nov. 18.—Herr Renner, Socialist, has been appointed president of the provisional Austrian government, according to advices received here today.

"WILSON IS OUR GOD, HE FINISHED WAR," SAYS ITALIAN MAJOR

With the Italian army in Northern Italy, Nov. 18.—All army commands are moving forward in order to keep in closer touch with the evacuating troops.

The Americans, headed for Tolmino to take up positions on the frontier, are moving so fast that their food and equipment transport has been unable to keep pace with them. Today the Americans were fed by a passing Young Men's Christian Association truck.

During the offensive only one American was killed. Six were wounded slightly, and all of them are very proud of their hurts.

The roads are still blocked with blown-up bridges and general wreckage. There still are thousands of uncounted prisoners behind the Italian front.

Prisoners with whom the correspondent talked indicated the greatest interest in American political events. They do not regard the United States as an enemy.

"Wilson is our God," said one Major. "He finished the war and also is helping us to freedom."

EVENTS IN THE GERMAN EMPIRE BEING WATCHED

Washington, Nov. 18.—Events in Germany are being closely tabbed here, and in allied capitals as a basis for judgment concerning formation of the peace conference.

Signs of a change in party alignment may mean that before the session is convened a new government will be in power. Some indications point to ascendancy of even more radical forces than have been in the saddle, but in so far as information here goes, the revolution is fairly well in hand.

Government officials are fearful of least bolshevism in one guise or another shall burst forth in Germany, with detrimental effect.

Such an event, the assembling at the peace table would undoubtedly be delayed.

However, those in authority here and abroad are proceeding with the preliminaries as fast as possible and will go ahead with the conference if will disorder does not break out in Germany.

American ideals will be spread throughout Europe soon, as an educational force for the peace table. Members of the committee on public information are going abroad this week. President Wilson's thanksgiving proclamation just issued pronounced anew the doctrine that American was not in the war for aggressive purposes and is not now actuated by other than altruistic motives.

TROOPS IN THIS COUNTRY WILL BE FREE BY JANUARY

Washington, Nov. 18.—War department authorities are giving consideration to the second phase of demobilization—a return of divisions from abroad.

It is estimated that it will be some time in January before the government completes its task of freeing the 1,700,000 men in this country. It is doubtful now if any appreciable movement of troops from over there will commence before that work is done.

Anticipations have been current that the department proposed to bring a few divisions home by Christmas, but General March thus far has not taken the public into his confidence on this point.

The New England division, mentioned as a possible Christmas present for the nation, is named in unofficial messages as being in the army of occupation. This group, reported now to be ten divisions, may have to be increased later, and it is quite likely that the units now engaged therein will be changed from time to time, just as in battle.

The work of freeing men in this country will be hurried as much as possible. The demobilization of development battalions, the first task undertaken is now in progress.

When the rainbow division comes home, it will have to be distributed all over the country, because of its national character. This national tour idea may be coincident with the "Home Coming Loan" to be launched early next year, as the fifth war loan.

JUSTICE SHALL REPLACE FORCE IN WORLD PROCLAIMS PRESIDENT

Washington, November 18.—Special and moving causes to be grateful and to rejoice are set forth by President Wilson today in his annual Thanksgiving Day proclamation.

Thursday, November 28, is proclaimed as this year's day of "thanksgiving and prayer."

The President appeals for strengthening of friendship and mutual respect in building the new structure of peace and good will among the nations.

The proclamation reads: "It has long been our custom to turn in the autumn of the year in praise and thanksgiving to Almighty God for His many blessings and mercies to us as a nation. This year we have special and moving cause to be grateful and to rejoice. God has, in His good pleasure, given us peace. It has not come as mere cessation of arms, a mere relief from the strain and tragedy of war. It has come as a great triumph of right."

"Complete victory has brought us, not peace alone, but the confident promise if a new day as well, in which justice shall replace force and jealous intrigue among the nations. "Our gallant armies have participated in a triumph which is not marred or stained by any purpose of selfish aggression. In a righteous cause they have won immortal glory and have nobly served their nation in serving mankind."

"God has, indeed, been gracious. We have cause for such rejoicing as revives and strengthens in us all the best traditions of our national history. A new day shines about us, in which our hearts take new courage and look forward with new hope to new and greater duties."

"While we render thanks for these things, let us not forget to seek the divine guidance in the performance of those duties and divine mercy and forgiveness for all errors of act or purpose, and pray that in all we do we shall strengthen the ties of friendship and mutual respect upon which we must assist, to build the new structure of peace and good will among the nations."

"Wherefore, I, Woodrow Wilson, President of the United States of America, do hereby designate Thursday, the twenty-eighth day of November, next, as a day of thanksgiving and prayer, and invite the people throughout the land to cease upon that day from their ordinary occupations and in their several homes and places of worship to render thanks to God, the ruler of nations."

"In witness whereof I have hereunto set my hand and caused the seal of the United States to be affixed."

"Done in the District of Columbia this sixteenth day of November, in the year of our Lord one thousand nine hundred and eighteen, and of the independence of the United States of America the one hundred and forty-third."

Woodrow Wilson.

By the President: Robert Lansing, Secretary of State."

UNITED STATES WAS WORKING ON A GIANT CANNON

Washington, Nov. 18.—Had the war continued, the U. S. would have had a long range gun shooting much farther than the Teuton one which shelled Paris.

The gun the U. S. proposed to make would have had a range of probably 100 miles, but whether it will be developed now that the struggle is over, is uncertain.

Like the mounting of the big 14-inch naval guns for front warfare, this long ranger was to be the product of navy brains.

ARMIES OF ALLIES CLOSE ON GERMANY FROM ALL FRONTS

Rome, Nov. 17.—(Delayed)—In compliance with the armistice provisions, Italian troops have occupied the main Austrian railway centers and passes toward the German frontier.

Amsterdam, Nov. 18.—A demand that the Rhine provinces be occupied only by British and American troops, was made today by the Cologne Gazette. This newspaper professed a fear that the French would incite the populations of these provinces.

London, Nov. 18.—Independent socialists have issued a manifesto urging abolition of a German monarchies, according to a Berlin dispatch received today by way of Zurich. It was pointed out that the German nation is still burdened with 17 kings, dukes and grand dukes.

By Webb Miller.
With the Americans advancing toward the Rhine, Nov. 18, (By courier to Verdun and Bar Le Due)—The third army resumed its advance into German territory at dawn today.

When the march began the left wing of the Americans rested on the Franco-Belgian frontier, while the right wing was near the German border in the Metz region. The American troops had camped during the night an average of nearly ten miles within the former German positions, along the general line of Ecouvieu, Sorbent, Gouraincourt and Mars La Tour—a front of about fifty miles.

In their first day's march the Americans claimed nearly 500 square miles of French territory. Most of the towns, which has been badly shot up, were deserted by the Germans only a few hours before the Americans reached them. The Germans had not blown up any of the bridges or roads.

The few inhabitants hailed the Americans with delight. The advance proceeded smoothly, averaging three miles an hour. Signal corps men were kept busy bringing up new wires. The troops were fully equipped, wore their tin-hats and carried gas masks.

The infantry was in the lead, followed by machine guns, artillery, supply trains and ambulances. Each division was about thirty miles in length. All ordinary war time precautions were observed in last night's camps.

Today's advance is in the direction of Longwy. Laborers are repairing the German-built highways. A crossing what was the advanced zone the roads improved and the going was fine.

In withdrawing, the Germans abandoned quantities of material, guns and munitions, in accordance with the provisions of the armistice. At Spincourt, a German officer remained to turn over 42 guns, including two of 18 inch calibre. (This is the largest calibre gun ever mentioned in any dispatches.) He received a receipt.

In the darkness just before dawn yesterday, the first, second, third and fourth divisions, composed of regulars and the Thirty-Second (Michigan and Wisconsin) and Forty-second (Rainbow) divisions started from their positions in which they had encamped on the edge of the American lines. They were preceded by a small van guard.

East of Verdun, Major X. L. Ewall of Lexington, Va., commanding a battalion of the first division, led his men up to the line at 5:30, presented his orders to the outpost, stepped across the line and ordered "forward march!"

A similar procedure was observed at other entry points.

The various divisions followed eight main roads toward Luxembourg. The Van Guard of the first division occupied Etain at 6 o'clock. Engineers marked land mines with red flags. German telegraph lines were picked up and within three hours the American division command was installed in former German headquarters.

All day long the roads to Luxembourg were crisscrossed with marching troops flying regimental flags. The advance, with clockwork precision, read the assigned objectives early as the troops went into camp.

Thousands of released prisoners, the verge of starvation, streamed into the American camps. They included Russians, Rumanians, Italians, Belgians, French and a few British and Americans. They were picked in trucks and sent to the rear.

Every detail of the advance was carefully planned. Engineers hunched signs indicating towns and distances between them. As the columns rolled forward, various detachments dropped out of the line to take up previously assigned positions.

The whole thing is far from spectacular but is most business-like.

DRAFT BOARDS ARE TO BE RETAINED

Washington, Nov. 18.—The 4,556 local draft boards of the country will be retained the national army will cease to function at once if a recommendation which Provost Marshal Crowder has made to Secretary Baker is approved. The plan to discharge the drafted men in the same manner in which they are selected and sent off to the mobilization camps.

General Crowder points out that there would be a great sentimentality in having the local boards muster out the men they sent into the army and that this could be done in appropriate ceremonies which would be appreciated by the communities.

HEALTH TALK

SPANISH INFLUENZA OR GRIP
BY DR. LEE H. SMITH.

An old enemy is with us again, and whether we fight a German or a germ, we must put up a good fight, and not be afraid. The influenza runs a very brief course when the patient is care- ful, and if we keep the system in good condition and throw off the poisons which tend to accumulate within our bodies, we can escape the disease. Remember these three C's—a clean mouth, a clean skin, and clean bowels. To carry off poisons from the system and keep the bowels loose, daily doses of a pleasant laxative should be tak- en. Such a one is made of May-ap- ple, leaves of aloe, root of jalap, and called Dr. Pierce's Pleasant Pellets. Hot lemonade should be used freely if attacked by a cold, and the patient should be put to bed after a hot must- ard foot-bath.

To prevent the attack of bronchitis or pneumonia and to control the pain, at the drugstore and one given ev- ery two hours, with lemonade. The Anuric Tablets should be obtained by Dr. Pierce, and as they flush the bladder and cleanse the kidneys, they carry away much of the poisons and the uric acid.

It is important that broths, milk, buttermilk, ice-cream and simple diet be given regularly to strengthen the system and increase the vital resist- ance. The fever is diminished by the use of the Anuric tablets, but in addi- tion, the forehead, arms, and hands may be bathed with water tepid in which a tablespoonful of salaratus has been dissolved in a quart. After an at- tack of grip or pneumonia to build up and strengthen the system obtain at a drug store a good iron tonic, called "Iron-ic" Tablets, or that well known herbal tonic, Dr. Pierce's Golden Med- ical Discovery. adv

Prugh McMichael, little son of the Rev. J. S. E. McMichael, of Cedarville, received a severe gash in his thigh, which severed an artery, when a pocket knife slipped while he was whittling a stick, yesterday. The boy and his little brother were alone in the house at the time, and the cries of the children attracted a neighbor, who found the blood spurting from the wound in the child's leg, and saturat- ing his clothing. A surgeon was called and the flow of blood stopped.

SPANISH INFLUENZA—A NEW NAME FOR AN OLD FAMILIAR DISEASE

Simply the Same Old Grip That Has Swept Over the World Time and Again. The Last Epidemic in the United States Was in 1889-90.

ORIGIN OF THE DISEASE.
Spanish Influenza, which appeared in Spain in May, has swept over the world in numerous epidemics as far back as history runs. Hippocrates refers to an epidemic in 412 B. C., which is regarded by many to have been influenza. Every century has had its attacks. Beginning with 1813, this country has had five epidemics, the last in 1889-90.

THE SYMPTOMS.
Grip, or influenza as it is now called, usually begins with a chill followed by aching, feverishness and sometimes nausea and dizziness, and a general feeling of weakness and depression. The temperature is from 100 to 104, and the fever usually lasts from three to five days. The germs attack the mucous membrane, or lining of the air pas- sages—nose, throat and bronchial tubes—there is usually a hard cough, espe- cially bad at night, often times a sore throat or tonsillitis, and frequently all the appearances of a severe head cold.

THE TREATMENT.
Go to bed at the first symptoms—take a purgative, eat plenty of nourishing food, remain perfectly quiet and don't worry. Nature herself is the only safe for influenza and will throw off the attack if only you conserve your strength. A little Quinine, Aspirin or Dover's Powder may be given by the physician's directions to allay the aching. Always call a doctor, since the chief danger of grip is in its weakening effect on the system, which allows complications to develop. These are chiefly pneumonia and bronchitis, sometimes inflammation of the middle ear, or heart affections. For these reasons, it is very important that the patient remain in bed until his strength returns—stay in bed at least two days or more after the fever has left you, or if you are over 50 or not strong, stay in bed four days or more, according to the severity of the attack.

EXTERNAL APPLICATIONS.
In order to stimulate the lining of the air passages to throw off the grip germs, to aid in loosening the phlegm and keeping the air passages open, thus making the breathing easier, Vick's VapoRub will be found effective. Hot, wet towels and be applied over the throat, chest and back between the shoulder blades to open the pores. Then VapoRub should be rubbed in over the chest and back, and the throat, and thickly and covered with two thick- nesses of hot flannel cloths. Leave the clothing loose around the neck as the

KEEP FREE FROM COLDS.
Above all, avoid colds, as colds irri- tate the lining of the air passages and render them much better breeding places for the germs. Use Vick's VapoRub at the very first sign of a cold. For a head cold, melt a little VapoRub in a spoon, and take the vapors, or better still, use VapoRub in a benzoin steam kettle. If this is not available, use an ordinary tea- kettle. Fill half-full of boiling water, put in half a teaspoon of VapoRub from time to time—keep the kettle just slowly boiling and inhale the steam arising.

NOTE—Vick's VapoRub is the dis- covery of a North Carolina druggist, who found how to combine, in salve form, Menthol and Eucalyptus with such volatile oils as Eucalyptus, Thyme, Cubeb, etc., so that when the salve is applied to the body heat, these ingre- dients are liberated in the form of vapors. VapoRub can be had in three sizes at all druggists. While com- paratively new in certain parts of the North, it is the standard home remedy in the South and West for all forms of cold, throatiness—over six million jars were sold last year. VapoRub is par- ticularly recommended for children's colds or colds, as it is externally ap- plied and can, therefore, be used freely and often without the slightest harmful effects.

DO YOU WANT your friends to avoid you? They will certainly do so when your breath is bad.

There is no excuse for anyone having a bad breath. It is caused by disorders of the stomach which can be corrected by taking Chamberlain's Tablets. Many have been permanently cured of stomach troubles by the use of these tablets after years of suffering. Price 25 cents per bottle.

THE HOW AND WHY OF CALORIC PIPELESS HEATING

The CALORIC is not a pipe fur- nace—it is a pipeless furnace. Neither is it an experiment, hastily put together to meet a demand. It is specially designed to heat homes, halls, churches, stores, factories, etc., more uniformly, economically and satisfactorily than they have ever been heated by other systems.

HEARD FROM OUR SOLDIERS AND SAILORS

Private Ray Brannen, who is with the 322nd Infantry at the front in France, tells some interesting experiences in a letter to Mrs. Brannen, which was received a few days ago. The letter follows:

In the Wilderness of France, October 13, 1918.

Dearest Wife:—Well, this has been one real busy day. We just received four large sacks of mail. I got two letters from you and one from mother, the first in over nine weeks. Your letters were dated August 27, and September 9, mothers, September 11.

Well, you no doubt know where we are by this time. We are located on the front, and have been for several weeks, it is sure some place. We do not remain in any one place very long. The last place we were, we had to leave in a hurry, as we were shelled out. One soon gets used to the noise of the guns and shells bursting near. The other day I saw a shell kill five horses and two men. Believe me, from the sound of the guns now, we are giving the Hun a great barrage. We have been in three great attacks, but they did not amount to anything.

Yesterday, when moving, I saw two allied balloons brought down by a German aviator. Also saw a German plane which had been brought down. The German aviator was still lying beside the machine, dead.

Hundreds of German prisoners pass by each day. In one bunch of prisoners were found three German women. It is claimed they are using them to fire the machine guns.

The big shells are now passing over our heads. Guess they are trying to locate a French gun back of us. The German guns have been bombing several small towns around here at night. It is nothing new to just get asleep, when you are awakened by them flying over you. The other night I saw over two hundred allied planes fly over toward the German trenches.

Was in the dug outs held by Germans for over three years, and they were fixed up real nice, electric lights, running water, just like a large hotel.

The ambulances have been real busy. It is nothing new to see twelve to fifteen dead horses and the same number of dead soldiers when out on a trip.

We have not had much cold weather yet, but lots of rain. Have my bar-bar chair out in the field now along the road, just where we stop. It is not very safe in towns or near the cross roads and those are the places they shell the heaviest. This is a great life. We have plenty to eat, boy, a fellow just came up and said Germany had agreed to all the president's terms. Of course we have to sleep in wagons or under them when needed. A large tomato can to take a bath in, which to some are few and far between.

It is rather funny on a hot day to see some of the doughboys sitting along the road, picking cooties out of their shirts.

Well, dear, give father and mother my best and tell them I will write just as soon as possible, but we never know how long we are to remain in one place. Of course we do most of our moving at night. The other night we moved 23 kilometers in a big rain. Most of us were soaked through, but you soon get used to that. I have never met any one yet I knew. Andy Elder is back at the coast, 600 miles away, and I doubt if he ever sees the front. (consoling).

You will have to excuse writing as

I am sitting on a wagon tongue, writing on my mess kit. Give all the homefolks my best. Tell Mr. Sheets and the rest of the men I send my best.

A bunch of prisoners just went by. Boys, who look to be 14 years old. Louis Drake, a Xenia boy, received a bunch of Xenia Gazettes so we have all been busy reading them today. We are not allowed to have lights or fires at night, as a German aviator might locate us, and then we would be shell ed.

URBANA IS HANDED SHORT END OF SCORE OF 24 TO 7 BY XENIA

The Xenia High School football team journeyed to Urbana Saturday and added another victory by a score of 24 to 7. The game was hard fought throughout, the Urbana team repeatedly threatening to score, but the locals managed to hold them in check and won out. The Blue and White played an open game, making most of her gains on long and runs by Hartsock, Tullis and Riddell. Snodgrass made nice gains on a couple of passes also. The Urbana bunch played straight football, bucking the line repeatedly. They tried several passes but most of them were broken up or intercepted.

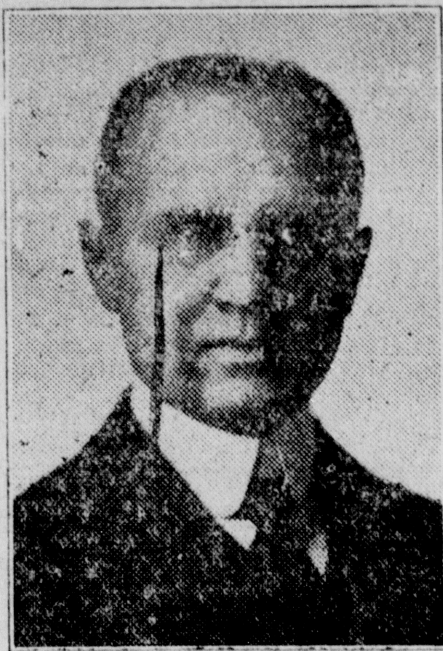

Xenia got her first touchdown when they got possession of the ball after the kickoff. A rapid march up the field netted a touchdown. Urbana came back and scored in the same quarter when Hennessy fell on the ball after Hagenbuch had carried it over. Currie added 3 more points in the second quarter on a drop kick from the 35 yard line. Hartsock made a touchdown in the third quarter on a forward pass and Currie bucked over in the fourth quarter.

Vannorsdall at quarter kept the opponents busy guessing, using fine judgment in calling his signals. "Bud" Owens played the game with a broken arm, having it in a splint less than a week. He played a good game at end on the defensive. Hartsock and Tullis both made long runs. Riddell made good gains when called back to carry the ball. Beals and Eyer were good on defense. The team played together and Urbana was out played at every stage of the game. The lineup and summary:

Snodgrass, line Beeks
Eyer, line Brandt
Satterfield, line Saxby
Ball, line Hennessy
Beals, line Gibbs
Riddell, line Rummel
Owens, line Bishop
Vannorsdall, line Hagenbuch (c)
Hartsock, line Dalton
Tullis, line Vance
Currie, line Lebkisher
Referee, Williams of Camp Shaw
man, Umpire, White of Urbana.
Touchdowns—Hartsock 2, Currie, Hennessy. Goals from touchdowns, Currie 3, Vance 1.

Controlling the Winds.

Controlling the winds is not yet a aviation triumph. If an aircraft start from one point to another one east and there is a wind blowing of 1 miles an hour northeast, that will clearly have to be taken into consideration, and the compass course altered (before ascending), according to the total distance of the journey.

DON'T SHORT CHANGE WAR WORK FUND

BY REV. CHARLES P. PROUDFIT
Pastor of 2nd U. P. Church.

Every dollar given to the United War Work Campaign is a vote of confidence in the judgment of those who at close range know a hundred times more about needs than those of us remote from the front. Every dollar we short change the amount asked is a protest against such men of world knowledge as John R. Mott.

America would be a base ingrate in the hour of victory to curtail the tiny margin of comfort of those who have been our substitutes. Those who sing daily "And we won't come back till it's over, over there" challenge the wavering of the tightwad who wants to quit the job half done.

Every home "over here" has had the death sentence hanging over it in the grim hours just ended. The question is whether we are worthy of its suspension. The dollars which go singing their way back to Northern France via the United War Work Campaign are the premium on a moral and physical insurance policy. Surely the underwriting of these hazards is a labor of love—the red corpuscles of American will gladly assume.

Those there are who imagine the armistice terminates the need of the "hut" or at least lessens this budget. How about that old saw of "An idle brain being the devil's workshop?" How about the wearisome, colorless days and hours ahead in featureless patrol duty and which intensify the necessity for "huts" instead of subtracting from it.

Others there are who imagine that Uncle Sam might assume the expense of this system. To so do would be to invest this whole recreative system with strangling red tape; to denature its religious features; and to sift out civilian details which smack of home.

No, let's come across with the eagle

HUGH HARPER IS WOUNDED IN A PECULIAR MANNER

A second letter has been received from Hugh Harper, who was wounded in France, which gives further information regarding the manner in which he was wounded. According to his letter it seems that he was in a machine gun squad and to gain protection from the enemy fire was sitting down. A sharpshooter spotted him and his bullet entered the bottom of his foot. His letter follows:

Dear Family: I have been thinking of my dear family all day so will try to write you a few lines. I am in a great deal of pain which is only natural from the nature of my wound.

Of course you are anxious to know how it happened. We were in action on the second day of the big drive at —, when we opened up our machine guns on some German infantry which was annoying our flank. In the process a Dutch sharpshooter picked me off the side of the hill. I was sitting with the soles of my feet straight up, feet pointing down the hill. The bullet was what is known as a dum-dum, or soft nose bullet. It entered the bottom of the foot, shattering the bones, hitting the main ankle bone and coming out right back of the bone. They had to operate on it at the first hospital back of the front where I was taken for the cleaning of the wound. The nurses are wonderful, so kind and sympathetic, so attentive to our every want. We certainly get wonderful treatment, so don't worry about me for a minute. I will start getting better in another week.

Love to all,
HUGH H. HARPER.

ALSACE-LORRAINE—V E N GEANCE IS MINE, I WILL REPAY, SAITH THE LORD.

From the very first of the war one of the things which nearly everybody in this country hoped for, was the desire that Germany should, in the end be compelled to restore to France the rich section of country known as "Alsace-Lorraine," which Germany had wrenched from France after the Franco-Prussian war, in 1871.

You will remember that that war (1871) had its origin in the same family as the present. This was the declaration of the candidature of the Hohenzollern prince Leopold for the crown of Spain. Such a candidature agreed upon without the knowledge of the French government, could not be permitted by France, and the war ensued.

Germany, in that war of 1871, was fully equipped and prepared for the conflict, with an army of 400,000, and two reserves of half as many more each; while France under Napoleon III, was illly prepared, with less than half as much of an army. The result could have been foreseen—the defeat of Napoleon—and the subsequent triumphant march of King William into Paris, where he was crowned Emperor of Germany. The treaty which followed provided for the ceding by France of the rich provinces of Alsace and Lorraine to Germany. These included valuable iron and coal mines, long coveted by Bismarck, King William's chief military general.

Since the armistice in the present war, many in this country have felt regret that our American boys did not get the chance to conquer Alsace-Lorraine and have the wonderful joy of turning it over to France. It would have read so splendidly in history. Naturally these sections are French, and have continued so during all these almost half a century of German occupancy. Such they were from the time of Caesar, who wrote in his Gallic wars that "the Rhine was the dividing line between Gaul (France) and Germany."

In 1871 the population of those provinces was 1,554,730. According to the census of 1910 it had increased to 1,874,014. Of these some 1,500,000 are of Alsace-Lorraine birth and descent. That is, they or their parents were born there before May 1, 1871, when the treaty of Frankfurt with one stroke of the pen turned them arbitrarily and against their most strenuous protest into Germans. Some 300,000 are German immigrants who have entered since and some 75,000 are of mixed origin.

Everyone in the territory who is at all educated speaks French in spite of the legal band placed by the Germans on the French tongue. Germany and its claims are apt to rest on an army of pliant professors dependent for preferment upon the Government, and to whom it looks for the historical and scientific justification of all its spoliations. Indeed, that is nothing new. Frederick the Great used to say quite brazenly, "I begin by taking possession of a province; pedants (lick-spittles) can always be found afterward to prove that it was my perfect right."

Ernest Renan wittily complimented German scholars on this function when he said, "With the philosophy of history as practiced by the Germans there are no rights in the world but those of the orang-outangs, unjustly deprived of these by the perfidy of civilized man." This fits the case in point.

Whatever was the frontier of Gaul at the time of the Romans it matters little to the human question as it stands today. The fact remains that in 1871, when Alsace-Lorraine was torn from France, the inhabitants at their imminent risk and peril continued strong protests even in the Reichstag after half a century of the two nations "living together." They are as antagonistic today as they were at first, or may be judged from incidents too numerous to dwell upon and from the fact that the French who penetrated Alsace recently were greeted by the population as liberators.

They are and always have been democratic and republican. They feel, as we do, that the State is made to serve the people, and not, as the Germans, the people the State. Which necessarily produces a diametrically opposed set of ideals and standards.

And the political history of these territories demonstrates this.

"The mills of the gods grind slowly but they grind exceeding fine"—and now Alsace-Lorraine have been returned to their own beloved France. It is seldom that vengeance shows so marked a retribution. The brazen conqueror of 1871 is the deposed and dishonored exile of 1918. God has wrought a great deliverance. "The horse and his rider hath he thrown in the sea."

The French cabinet on Thursday last considered questions concerning the organization of Alsace-Lorraine under French occupancy. Three high commissioners were appointed. They are Georges Maringer, commissioner general of national security, for Strassburg; Albert Tirman, State councilor for Metz and Henry Poulet, State councilor for Colmar.

It is probable that the departments in the rewon territory will resume their old names, namely, Bas Rhin, prefecture of Strassburg; Haut Rhin, prefecture of Colmar, and Moselle, prefecture of Metz. The Government already is considering the establishment of provisional administrative arrangements.

Thanks to the blessing of God in his good providence upon the united heroic efforts of our own and allied nations, the war struggle seems approaching its close.

ON GETTING BACK TO NORMAL.

No sensible person imagines that the return to normal conditions in the industrial and commercial life of the nation is going to be immediate or that a mere Government edict will bring about instant results in that direction. But nevertheless the removal of the ban by the war industries board on nonwar construction and upon various forms of public improvements and utility extensions is a long step toward readjustment. It is a necessary beginning, for it releases funds already available but tied up by war restrictions. It reopens long closed lines of commercial business, and it is bound ultimately to increase labor opportunities for the thousands and hundreds of thousands who will sooner or later be diverted from the making of munitions, etc., into the paths of peaceful occupation.

FOOD FOR THE GERMANS.

President Wilson has replied to the whining appeal of the German Government for food supplies as the nation would have had him reply. It is perfectly natural that there should be a feeling of profound aversion at the thought of sacrifices and deprivations on our part, and on the part of the Allies, for the benefit of the German people. We are not likely to forget, nor is it expected that we should, that throughout the whole course of the war the Germans were utterly indifferent to the fate of the populations of the invaded territories; nay more, they remember that food sent for the sole relief of civilian sufferers of Hun oppression was systematically diverted to German mouths. Yet we also must remember that the war was waged on our side for higher ideals than those which characterized the Huns; that it was a struggle for the supremacy of right and justice against unscrupulous and cruel might.

If peace is to be genuine and permanent, the victors must perform no act, leave no duty unperformed, with which they can be justly reproached on the pages of history. We have fought a good fight, we have kept our banners untarnished, maintained consistency in the conduct of the war. Now that we have won let not resentment, even righteous anger at the barbarity of the enemy divert us from the path of honor and humanity!

Making Them Comfortable.

Ethel, who was ten years old, was studying her reader and learned that fish are placed in brine before they are dried and prepared for sale. After explaining that brine is very salt water, the teacher asked why the fish were placed in it. Ethel's face was illumined with sudden understanding, and she promptly replied: "Because they are used to salt water!"

"THE WIFE"

By JANE PHELPS

BRIAN ENTHUSES OVER THE WAR.

CHAPTER XCI.

Brian hung up the receiver, his mind in a peculiar condition. He was flattered that Mollie had missed him; yet a bit worried that she had called him. Suppose Ruth had been at home. He must warn Mollie not to call him at home. Rachel, too, might answer and think it strange that a woman had called him. She was devoted to Ruth and probably told her all that happened in her absence.

"Mollie's a dear!" he said to himself as he often had said before. "She makes a fellow so darn comfortable."

Perhaps Brian was not so different from many other men, in that he admired a woman who made him comfortable. Most men are very sensitive to that sort of women, and Brian was a very ordinary sort of man in most things—Ruth's belief to the contrary.

Brian's view of Mandel had not tended to make him happy. That prosperous, well-groomed man whom the laces treated with such subservience, was just the sort of man Ruth had been accustomed to all her life, and whom her aunt would have chosen as her husband had she been able. In a way, the sight of him—his evident prosperity—had made Brian more bitter toward Ruth than he had felt for a long time. Suppose this man did make love to her. Would she be able to resist him, his money?

The thought made Brian blush because of what it implied of his idea of Ruth. He knew she loved him, that she was good and true. Yet he had insulted her by thinking that, because of Mandel's money, his personal attractiveness, she would perhaps prefer him to spending her life with a poor lawyer.

"If I had had a chance, I'd show them," Brian muttered as he started for bed. That he had all the chance anyone else had, he did not believe. Midas had not spilled gold in his lap; neither had he been favored by the gods with the luck that comes to some men. So he figured. That the very men he envied, worked two hours to his one—that they neither spent their time in foolish grumblings against fate, or wasted it in other ways, he would not have conceded. It was just his luck not to get along like some fellows did.

Ruth's picture stared at him from his chiffonier as he prepared for bed. She looked so frankly into his eyes. There was such a sweet smile on her lips, that he raised it and pressed a kiss upon the glass.

"She's sweet," he said as he tugged at his necktie. "I wish she liked to stay at home."

Had he known that Ruth was lying awake, her eyes wet with tears because she had not heard from him.

20 YEARS AGO

Mr. Joe Day, the well known butcher, and Miss Maggie Moran, daughter of Mr. and Miss Michael Moran, of Spring Hill, were united in marriage last evening, by Rev. Father I. J. Hocter. The ceremony took place at Father Hocter's residence. Mr. and Mrs. Day will go to housekeeping in a house on Miami Ave., the groom having everything prepared in readiness to begin life there. Joe is a first rate young man and the bride is a very highly esteemed young lady. They are now receiving the congratulations of numerous friends.

Born, to Mr. and Mrs. Wm. Eavey, a daughter, making a pair of girls for them.

Editor David L. Croy, of the Troy Record, came down today and is shaking hands with his Xenia friends. Since that time he has taken hold of the daily there the circulation has steadily increased, owing to the paper being made a live one and fully up-to-date in all respects.

Well Described.

A short time ago we were discussing a friend, who, while her hair had grown white with the years, had retained a youthful figure. A few days afterward Ruth, referring to her, said, "You know who I mean, Auntie—that lady who looks so young behind and so old in front."—Chicago Tribune.

JAMES J. JEFFREYS SPEAKS IN XENIA

James J. Jeffreys of Washington, D. C., former railroad man, now a well known lecturer, spoke at the Friends church on Spring Hill, and lectured also at a union meeting at Zion Baptist church Sunday night.

The story of Mr. Jeffreys' life reads like fiction. He was converted at the Pacific Garden Rescue Mission in Chicago in 1899. Since then he has lectured in more than 90 churches and spoken to over 300,000 students. He is endorsed by the clergy, educators and the press.

QUIT MEAT WHEN KIDNEYS BOTHER

Take a glass of Salts before breakfast if your Back hurts or Bladder is troubling you.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid which excites the kidneys, they become over-worked from the strain, get sluggish and fail to filter the waste and poisons from the blood, then we get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, dizziness, sleeplessness and urinary disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, stop eating meat and get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast and in a few days your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate the kidneys, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder weakness.

Jad Salts is inexpensive, and cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active and the blood pure, thereby avoiding serious kidney complications. adv

COUNTY TEACHERS URGED TO HELP PUT QUOTA OVER

The teachers and superintendents of the county schools are urged by County Superintendent Reynolds to devote every effort to the work of helping put the county War Stamp quota across before the close of the year. Supt. Reynolds has addressed the following letter to all teachers and superintendents:

To the Teachers and Superintendents of the County:
I am sure you are all anxious that our county may not fall short of her quota in the sale of Thrift and War Savings Stamps. Our county has gone gloriously "over the top" in each of the four Liberty Loans, the several Y. M. C. A. and Red Cross drives, and in all other war projects. It will be an over-riding regret and disgrace, if the good people of Greene county should permit her to fall short of her quota in this ONE WAR PROJECT.

Twenty-five or thirty counties of our state have already reached their quota in this Thrift and War Savings work, and the query they are posing at us is, "What's the matter with Greene County?" Most of us think old Greene county second to none in patriotism, wealth, commonplace intelligence, and industry, but if we permit her to fall short in this field of patriotic duty, we will have to revise our own estimate of our own county.

This Thrift campaign closes January 1. We have yet more than two hundred thousand dollars to raise to meet our quota. This is a small sum if we get behind it, but a very large sum if we expect the school children to raise it. There is but one way by which this vast sum of money can be raised and that is by close personal house to house canvass by adult solicitors. Of course, we will do all we can through the school children, but we need the assistance of adult solicitors. Each person in the county should be interviewed and urged to make as large a purchase as possible. Keep in mind that moneyed men and women do not care to bother with a small investment, so ask them to make it large enough to make it interesting. Several school children in the county have made sales of one thousand dollars. We will need many of these to put this across.

When one recalls that War Savings

As Light Goes Through Glass

Just as light rays penetrate through glass, so current passes freely through Threaded Rubber Insulation. Nearly 200,000 tiny threads in each insulator mark the path for the current flow.

The hard rubber stands guard against the formation of short circuits between battery plates.

There's another reason why the Still Better Willard Battery with Threaded Rubber Insulation is worth so much more than its slightly higher cost. It's the one and only battery with the "Bone Dry" principle that is your absolute assurance of getting a battery as new as the day it left the factory.

TALK NUMBER THREE

There are three general divisions of the Courses of Study at the Conservatory—The "Regular Course," The "Artist Course" and The "Teachers' Course." Each of these courses leads to a final diploma. To complete the regular course, the pupil must cover certain ground, including a course in Harmony. The requirements of the "Artist Course" are that the pupil shall be able to give a complete and artistic public recital in addition to completing the required subjects.

The "Teachers' Course" in the Piano Department is based on the "Progressive Series of Piano Lessons," as published by the Art Publication Society of St. Louis, Mo. This remarkable "text" work, while comparatively new, has already been adopted by thousands of the leading private teachers, Conservatories and Universities of the country, including Cornell University and the Cincinnati Conservatory.

H. E. SCHMIDT ENJOINS THE CITY OF XENIA

Two suits to enjoin city officials from enforcing the provision of the awning and sidewalk ordinances, were brought Monday morning for H. E. Schmidt, by Attorneys Marcus Shoup and E. L. Johnson.

Defendants in the action are the members of the City Commission, City Manager Riddle and Chief of Police James M. Canaday.

The petitions allege that the city

commission had no legal authority to pass the ordinances, and that the people were without authority to ratify the commission in its action.

It is alleged that the ordinance regulating the use of sidewalks is not uniform in its operation. In that it excepts from its operation any balcony, bay window or column of any building abutting on the street. The only columns of any building abutting on the street at the time the ordinance was passed, it is set forth, were the columns at the Xenia National Bank building, which are for ornamental purposes only. It is set forth that the awning in front of the plaintiff's place of business is of a permanent nature, and a vested property right, and that the plaintiffs are seeking to interfere with him in the lawful operation of his business by causing its removal.

The ordinances in question were passed some months ago by the city

commission and the removal of awnings and other obstructions under the provisions of the ordinance was delayed by action of several citizens who demanded a referendum on the question. The question was presented to the citizens of the city for decision at the last election and they by an overwhelming majority voted to uphold the ordinance and thus demanded the removal of the awnings.

A temporary restraining order was allowed by Judge Kyle.

'NEGLECTED' WAS AN EASY ONE

The word left out of an ad. on the Missing Word Contest pages last week was "NEGLECTED" and was omitted from the Clara G. Rentinger Insurance ad, between the words THEN and TO.

Well only a very few of the hundreds who are in the contest missed this word. We really thought that we had left out a rather hard word this time, but even the youngsters found "neglected."

Now for this week, we are omitting a word that will take just a little bit more careful hunting, especially for the younger folks, for it is pretty well concealed, although not a really hard word, it is not a short one. Look well old folks and young folks. Watch the corners so to speak, this time.

We are compelled to make the words just a little harder to find from now on, for everyone seems to be finding the correct ones each week, and of course if this continues, there would be no one to win, for everyone would be the winner if ALL answers were correct.

Don't quit now, if you can't find the right word any one week, for we believe that the winner of the contest for the twelve weeks will not have over eight or nine correct answers all told. So get busy, even if you have turned in an incorrect answer, and make up for the ones the other fellow misses, with your correct ones.

Remember now, that word for this week starts with an "E" and ends with a "T". The Contest ads. are confined to two solid pages of advertising, always run side by side, with an overflow of three ads. plainly marked on the following page. Don't miss these extra ads, for the word might be in one of them.

XENIA WAKES UP AND WILL GO OVER TOP IN CAMPAIGN

Xenia has awakened. According to official figures given out Monday morning the United War Work Campaign in Xenia city gives promise of being a success in spite of the disheartening manner in which the campaign got under way. At the close of business Saturday night there was in the hands of the treasurer money and pledges to the amount of \$7,589.95. This leaves only \$5,000 to get, and the committee feels confident that it has nearly \$3,000 of this amount promised.

This leaves only about \$2,000 or \$2,500 yet to be subscribed. The solicitors are confident they can secure that amount, even if they have to go back to the people who have already given. There are several wealthy citizens who have thus far refused to give and it is hoped that they may be forced or coaxed into line.

Up to date, the big subscriptions have been made by the Hoover & Allison Company and the R. A. Kelly Company. The Hoover & Allison Company has given \$1,200 and J. D.

Steele gave \$300 in addition, as a personal subscription. The R. A. Kelly Company gave \$1,100 and Mr. George Kelly gave \$100 additional as a personal subscription. These handsome subscriptions and a few other subscriptions of from \$100 to \$500, which the committee hopes to get, will put the city within striking distance of the goal.

The committee which on Saturday morning was badly discouraged over the condition in Xenia, is now much pleased over the situation, and promises that Xenia city will come through with colors flying. This should be good news to all loyal Xenia people.

In the county, the campaign is going along nicely except in two or three precincts where the campaign machinery has broken down. New organizations have been built up in those townships however, and every township promises to stay on the job until their respective quotas are reached, even if it takes all week.

Officially, the time limit for the campaign has been extended until Wednesday night, and at that time Chairman Prugh hopes to be able to announce the county quota has been reached.

After a long period of ill health from heart trouble, John Higgins, a well known farmer of Sugarcreek township, died at his home north of Bellbrook at 6:30 Saturday evening.

Two weeks ago he was stricken with the fatal attack, but previous to that time for two months his health had apparently improved.

Mr. Higgins was the second son of Anthony and Winnifred Stanton Higgins, and he was born in Manchester, England. When he was six months of age his parents came to the United States, and settled in Bellbrook, which was the family home until their removal to the farm north of Bellbrook. After the death of his father, John Higgins came into possession of the homestead and it was there his death occurred. Twenty three years ago he married Miss Martha Volkenand, of Dayton, who survives him with their daughter and son, Miss Winnifred, and Herman. He is survived also by three sisters and a brother, Misses Mary and Ella Higgins, the latter living with his family on the home place, Mrs. G. F. Stutzman and Anthony Higgins. The late Thomas Higgins, of this city, was a brother of the deceased.

He was a man of quiet disposition and upright life, respected in the community where he spent all his life. He was a member of Holy Angels church, Dayton, and the Dayton branch of the Hibernian Society.

Funeral services will be held at Holy Angels church, Tuesday at 8:30. Burial in the family plot in Calvary cemetery.
